## Sawn Softwood

Covers' timber selection is unrivalled for depth and quality. Softwood, hardwood, sheets, cladding, treatments and priming. We've got it all – and more. Our softwood joinery is Scandinavian and our carcassing timber is sourced from Scandinavia, the Baltics as well as home grown and purchased direct from the most reputable sources in Finland, Estonia, Sweden, Latvia, France, Germany and now increasingly from UK and Irish suppliers.

We hold extensive stocks of constructional timber. Kiln dried, C16 or C24 graded, regularised for uniformity of size and with eased edges for ease of handling.

We also import kiln dried and graded whitewood from Germany to satisfy the demand for bigger and longer dimensions.

## Strength Grading

Across the Covers Group you'll find qualified strength graders certified by BM TRADA Certification Ltd, enabling us to deliver carcassing timber that's fully graded for strength – and enabling you to meet the increasing demands of Building Regulations.

Our experienced graders have a unique grader's number and company number, ensuring that every piece can be traced back to source – delivering real peace of mind.

## Timber Treatments

At Covers we can provide a range of treatments on site from suppliers such as Koppers and Arch, using different cycles of treatments for different risk factors.

### Tanalith

The 12m long x 2m diameter vessel is capable of treating annually in excess of 10,000m<sup>3</sup> of construction, fencing and landscaping timbers using Tanalith wood preservative. Ask us for our UC4 range for treated timber in contact with the ground.

This system ensures that each treatment of timber has the correct level of preservative protection for its eventual end use. The new technology allows us to make the best use of the plant's design and capacity, giving us significant ready treated stocks of key timber components for our customers requirements.

### Water Borne

We use a water borne Protim Clear Choice range of envelope treatments for both internal and external use.

### Organic

We use a clear organic wood preservative treatment for prepared joinery timber and manufactured doors, windows, stairs and mouldings where a clear or painted finish is required. Treatments are based on fungicidal, insecticidal formulations at the forefront of timber treatment. A certificate of treatment is issued with every order

### Solvent Based 265 + Waterbased E406t

There are 2 types of Classes for both of these.

Use Class 2 – Interior Use Only

Use Class 3 – Interior/ Exterior Has A Risk Of Wetting

Solvent based is a Clear Treatment normally used for PAR & Manufactured Components, this is because the timber will not swell in the process. So this ensures any joints on bespoke windows and doors you have made won't fracture in the process.

Waterbased E406t is also a Clear Treatment. This will expand during the process, normally used for external products such as featheredge. When using Protim® in external applications it will need to be coated with a suitable external coating which will be maintained in service.

### Fire Protection

We are able to offer a fire retardant treatment service for interior and exterior use.

### CLS studwork timber

50 x 75mm (38 x 63mm) Studwork timber  
2.4, 3.0, 4.8m lengths

### Specialist mouldings

See page 9

### Hardwoods from stock

### Certified for peace of mind

At Covers we continue to increase our stocks of FSC® certified and PEFC certified redwood and whitewood, sourced from responsibly managed forests.

The mark of  
responsible forestry

## Milling Service

### The production mill

At Covers, our Chichester depot boasts a fast modern production sawmill where we produce in excess of 150 different types of machined sections including skirtings, architraves, TGV boards, shiplaps, mouldings and square edge material in Whitewood, Redwood, Cedar, Douglas Fir and various species of Hardwood.

We are able to supply FSC-certified or PEFC-certified machined timber to order, with the Chain of Custody guarantee that this has been sourced from responsibly managed forests.

Our mill is responsive: every week, we custom-machine thousands of metres of mouldings to customers' own patterns. Typical turnaround times achieved are under 5 working days. Our mill is environmentally-friendly and produces up to 8 tonnes of wood shavings daily. This is recycled as animal bedding or converted into wood pellets for biomass heating.

We have supplied specially machined timber profiles to many historical buildings including Windsor Castle, Arundel Castle, Clarence House, Goodwood House and Uppark House. Many other key Georgian and Victorian buildings in the south have benefited from our experience with complicated mouldings to match and replace existing period features.

With decades of specialist machining expertise in producing intricate mouldings our work speaks for itself. So challenge our expertise – no matter how unique your moulding is, we can match it in Softwood or Hardwood timber.

### Drawing take-offs

Covers can also provide an efficient and cost-effective estimating and reproduction service for special or hard to find mouldings using a CAD system for accurate drawings.

The increase in the numbers of listed buildings, and a desire to preserve 'original features' has created an ever greater need for specialist softwood and hardwood sections.

We provide timber profiles to exactly match or replace most sections. Our highly skilled machinists, using the latest technology, will produce a wide range of skirtings, architraves, flooring, panelling, handrails, window sections, dado and picture rails, window and door frame sections, from high quality joinery softwoods and hardwoods.

## Specialist machining

We can copy and machine anything from 900 millimetres in length and upwards.

With our skilled technicians and state-of-the-art machinery we guarantee a product and service that is envied by most and matched by none.

We machine from architects' or customers' own drawings. In addition to producing over 200 different types of prepared mouldings and planed sections for our own stocks, our modern mill produces specialised products to satisfy customers' specific requirements. Our modern technology and machinery allows us to process any order easily and quickly.

## MDF mouldings

In addition to Timber mouldings we have a vast range of skirtings and architrave MDF mouldings in stock.

### Features

Architraves

Skirtings

Dado/picture rails

Ogee panel mould

Double astragal

Ovolo stops - beads

Handrails

Bottom rail

Bottom/top meeting rail

Spindles

Window cill

Parting bead

Staff bead

Pick up our Timber Brochure from any Covers depot or download from [coversmerchants.co.uk](http://coversmerchants.co.uk)

## Priming Service

We have a special priming and lacquering department at our Chichester depot.

Using quality products and machinery, from suppliers such as Dacrylate and Palmer Primer, this service has been increasing in popularity as more and more building contractors learn about its existence.

Electrically regulated sprays spread the water-based acrylic primer paint evenly on all surfaces. Any excess primer is then removed by a controlled vacuum system. This procedure results in an even coated, perfectly smooth primed surface.

Having your priming done in our factory will mean there is no waste of paint on site, the area is left clean and there are no weather delays to application or drying.

## Fire Retardant Panel Products

We have in stock a range of fire retardant MDF & plywood that will help comply to building regulations.

Metsä Wood Spruce FireResist is a surface impregnated softwood plywood with enhanced fire performance. The European reaction to fire classification for Spruce FireResist is B (according to EN 13501-1). The product is suitable for interior applications, and it must be protected from weather exposure at all times.

Available in 18mm thickness.

Meditate Premier FR (Flame Retardant) Euroclass C are MDF panels developed specifically for use in situations where a Euroclass C flame retardant board is required under building regulations.

Available in 12mm & 18mm thickness.

# Panel Products

Covers has real strength with stocks of constructional boards, decorative boards, veneered boards and specialist laminates, flame retardants, plasterboards and many more.

Choose from an unbeatable array of boards from suppliers such as Smartply, Medite, Sundeala for every application.

When it comes to a drop of the hard stuff, trust Covers to source, select and grade an array of beautiful hardwoods from the world's leading suppliers. We have a vast selection of tropical and temperate hardwoods for flooring, mouldings and more. The Covers hardwood team are experts in their field, with decades of accumulated knowledge. They can advise on everything from sourcing non-standard species to producing exactly the right quality and finish.

***Challenge us to machine any profile for you.***

### Our Stocked Hardwood range

#### Hardwoods

Iroko	
Utile	
American White Oak	
European Oak	
American Ash	
Poplar (Tulipwood)	
Sapele	
Meranti, Dark Red	
Fresh Sawn Oak	

We can also supply many marine sea defence species. Just ask for details of the many other species we can source from around the world.

To provide the finishing touch, Covers also stock timber pellets to match many species of hardwood.

We are committed to the environment and only purchase timber from verified legal responsibly managed forests.

**Ask your local depot about lacquering and fire treatments**

# Cladding

## Why use Timber for Cladding

Timber cladding provides an attractive, versatile and durable external finish. Timbers environmental credentials are leading to increased usages on all types of building projects.

## Appearance

Not only does it look good, enhancing the external appearance of any building, it is more interesting and pleasing to the eye. The versatility of timber means it can be produced to almost any profile.

## Durability

Hardwoods and some softwoods such as Western Red Cedar, Larch, Accoya, Douglas Fir are naturally resistant to decay. Less durable species such as European Redwood can be treated with a preservative for prolonged life.

## Performance

Along with durability and a long service life, Timber Claddings natural properties offer an improved acoustic and thermal conductivity performance.

**Ask your local depot about lacquering and fire treatments**

Building on our experience as a leading independent supplier of building materials, we have a great understanding of both trade and retail needs.

Our knowledgeable staff can source almost any item for you and give advice on the most suitable products to use. We offer a consistently reliable delivery service from stock and provide a direct to site service.

Major suppliers stocked at Covers: Ecotherm, Hanson, Ibstock, Wienerberger, Celcon, Brett, Thakeham, Castle Cement, IG Lintels, Isover Insulation, Stowell, Anderton's, Stressline, Siniat and Resistant.

# Bricks & Blocks

At Covers, our wealth of experience will help you get just the right blocks and bricks for every project. We offer unrivalled brick matching, either from stock, sample or site visit, with the closest possible match for texture and colour.

Get Covers involved in your project at the off and we'll make a valuable contribution to the brick selection process with sample panels and a range of pricing alternatives in machined, wire cut or handmade bricks.

## Brick Libraries are available at our larger depots.

Covers stock Aircrete and concrete blocks from a variety of national suppliers, in widths ranging from 75 to 355mm.

### Covers brick styles

- Stocks
- Drag faced
- Smooth
- Rusticated
- Sand faced
- Special shapes
- Arches
- Cills & pavers
- Brick tiles

At Covers we like to keep up to date with the new regulations with BS5534 being the British Standard for slating and tiling with guidance on best practice relating to the installation of a roof.

### Flat Roofing

### GRP Roofing

- 20 year guarantee on materials
- Adjusted for seasonal variations in temperature
- High flexibility
- Technical support
- Full training and on site support available

### Torch on Felt & Self Adhesive Felts

- Up to 20 year guarantee
- Charcoal and green cap sheets
- Premium and standard underlays
- Vented base layer available
- Calor gas for torches available
- Manufacturers technical back up services

### Pitched Roofing

#### Marley Tiles & Slates

- Concrete plain and profile tiles
- Marley Thurtone Slates
- Various colours available
- Fitting to match
- Manufacturers take off service offered

#### Natural Spanish Slate

- Top grade slates
- Continuity in colour
- Fixings and complementing fittings
- Take off service and site advice offered for larger roofs

# Roofing

## Dry Fix Roll Out Ridge

We stock all the kits to mechanically fix ridge tiles, hip tiles and dry verge. We also keep the required breathable roofing membrane required by the revised BS5534.

- Regulation standard offering
- Various popular colours
- Manufactures help and advice

## Rolled Lead

Lead	Roll Length	Weight 1lb = 2.205Kg	Thickness mm	Users
Code 3 Green	3m or 6m	3lb per sq.ft	1.32	Soakers
Code 4 Blue	3m or 6m	4lb per sq.ft	1.80	Apron and cove flashings, pitched valley gutters, lead slates, chimney flashings, back gutters, side flashings
Code 5 Red	3m or 6m	5lb per sq.ft	2.24	Parapet, box and tapered gutters

## Roll widths

Standard stocked lengths from 150mm to 1200mm

## Patination oil

Prevents unsightly white staining and provides pleasing surface appearance.

For large and small loft conversions Covers stock vast ranges of quality materials and accessories from major brands, with experienced sales staff who can help with any technical advice to help you determine your needs.

## Insulation

Not only are we able to supply from stock a full range of insulation products from a variety of national suppliers, we can also call upon a vast network of manufacturers and distributors, enabling us to offer you non-standard items that you may have had problems obtaining.

With our Insulation experts we are able to assist you with any technical issue that may arise, including U-Value Calculations (roofs, floors and walls) and Part E problems both for robust details (RSDs) and systems needing pre-completion testing. We are also happy to make site visits.

Polyisocyanurate (PIR), the basis of a rigid insulation board. PIR insulation boards offer many advantages when compared with other traditional insulation materials, and over its useful life will save 80 times more energy than was used to make it.

A rigid PIR insulation core is sandwiched between two high performance facings to create a tough, durable, light weight insulation board that performs whilst reducing the overall cost to build.

We also have a broad range of Acoustic insulation to suit a range of applications such as Isover Spacesaver plus (Acoustic insulation). This is multi-purpose, flexible, non-combustible, glass mineral wool roll, and is specifically designed for installation by friction fittings.

MultiFoil is a flexible, easy to install, multilayer insulation offering tremendous thermal benefits. The unique composition effectively deals with all forms of energy transfer. This product is suitable for roofs, walls, floors and offers the following major benefits:

- Cost saving solution
- Effective 2 in 1 insulation and vapour control membrane
- Reduces construction depth
- Reduces risk of condensation
- Non degradable maintaining thermal performance and product integrity

Also available is Masonry Party Wall Roll which is a flexible glass mineral wool slab which is lightweight, resilient and non-combustible, it is designed as a full fill thermal and acoustic solution for use in masonry cavity party walls between adjoining apartments, semi detached and terraced houses.

Keep the rain out and the heat in. Then seal it up and get the finish right. Covers have the widest array of dry lining boards and plasterboard accessories from a variety of national suppliers.

### Dry lining range & accessories

Wall boards	Thermal laminates
Fire boards	Adhesives
Vapour boards	Sealants
Moisture resistant board	Joining materials
Metal components	Multiboards

### Dry lining range & accessories

Fixings / Tapes	Stainless steel beads and lathing
Thistle undercoat and finish plasters	Metal components
Galvanised/PVC beads for plaster and dry lining	

For further structural support, we can also supply from stock a leading selection of steel arch formers, Expamet coil sheets and riblath.

## Dry Lining & Plasterboards

We offer an extensive range of plasterboards which are designed to meet virtually all performance requirements. Our standard plasterboards are light, strong and easy to cut, they are available in a wide range of sizes and options. Where increased performance is required, a complete range of moisture, fire, sound, vapour and impact resistant boards are also available.

### Dry Wall Systems

We supply metal systems for internal wall linings, partitions and ceilings, plus a full range of accessory products, designed to ensure both excellent long term performance and ease of installation.

### Fire Protection Boards

A1 non-combustible, mould resistant and breathable building boards are available through us with applications such as;

- Canopies
- Dormers & Soffits
- Fire Rated Walls & Ceilings
- Boiler Backer boards

*A full technical support and advice service is available at Covers.*

## Fibre Cement Cedral Weatherboard

### Features

Timber-like grain and texture

Low maintenance alternative to PVCu

Withstands the harshest weather conditions

Class O fire performance

Simple to install

Pre-painted or natural panels available

Marley Eternit is a cement base cladding system which is unique and aesthetically pleasing, whether used on homes or commercial buildings.

It is available in several different colours and stain finishes.

Unlike PVCu the product has a realistic timber-like grain, texture and is designed to withstand even the harshest weather conditions. Virtually maintenance free, weatherboarding conforms to Class O fireproofing standards so it is as safe as it is durable.

So easy to install, Weatherboarding is available in pre-coated and woodstain finishes or natural for on site treatment.

**Please ask at any of our depots for more information and a range of samples.**

## Building Materials Accessories

### DPC

Poly or Zedex – 112mm to 600mm wide

### DPM

250mu or 300mu (1000 Gauge, 1200 Gauge)

### Builders polythene

4m x 25m roll

Gas Barrier Tapes And Sealants

### Lintels

Pre-stressed concrete lintels and steel lintels for cavities etc. In various lengths and widths.

Allow 150mm bearing each end for support, and when ordering give width x height x length.

### Manhole covers

Cast iron or galvanised steel for pedestrian use, steel for heavy use – 10 tonne and 25 tonne.

Tray cover for block pavers, recessed for internal use kept in stock.

### Hippo bags

A bulk bag when a skip is too much. Choose the size that suits your needs, fill it and telephone for prompt disposal.

### Drainage

Our underground drainage comply where applicable, with the requirements of the following British Standards.

BS EN 1401-1: 2009 PVC-U Underground Drainage Systems (SN4)

BS EN 13476-2: 2007 Structured Wall Piping Systems (SN4)

BS4660: 2000 PVC-U Ancillary Items (Rodding Eyes, Access fittings etc)

BS EN 124: 1994 Access Covers, Gratings and Frames

Drainage pipe has a British Standard Kitemark (BS EN 13476-2:2007)

**.....Plus many more products in stock**

## Bagged Products

Whether forming a driveway, laying a patio or that bit of outside rendering, we have all you need in either loose, bulk bags or mini bags, whichever is more convenient for you.

At all depots we stock bulk bags and handy bags.

From all of our depots we can offer an ordering service for large quantities of loose aggregates. All our delivery vehicles are equipped with mechanical handling equipment to ensure fast and efficient off loading at your site.

Limestone scalplings, ballast, shingles, sands, topsoil and decorative aggregates.  
Specialist equestrian and sports requirements from all depots to order.

## Landscaping

Our Landscaping displays demonstrate the extensive ranges of landscaping products available from stock or to order. Why not visit us and speak to our qualified staff about garden design and the best products for your garden.

Various Sandstone water features can become the focal point of any garden.

We provide the very best in natural stone and concrete paving, walling and edging in various sizes.

Add colour and texture to your garden by using a variety of our decorative slate and chippings along with rockery stone, boulders and paddlestone stones.

All our depots stock a range of Landscaping products. Whether planning a small patio or creating a large garden, Covers stock everything you need to complete the task.

Our depots have dedicated members of staff who can recommend the best products to use.

### Additional landscaping products:

- Block paving
- Flagstone
- Decorative aggregates (stones, chippings, pebbles, sand and cement)
- Bricks & blocks
- Edging
- Walling
- Decking
- Garden buildings & conservatories
- Sheds
- Fencing & gates
- Manure, compost & topsoil
- Chipped wood & bark
- Treatments & finishes

*Pick up our Landscaping Brochure from any Covers depot or download from [coversmerchants.co.uk](https://coversmerchants.co.uk)*

***Please note: colour & texture variations in all natural stone products***

Decking creates a natural link between house and garden, making the most of an under-used but valuable area outdoors.

You will find everything you need to create the deck you've always wanted with decking from Covers.

It provides a perfect area for entertaining, barbecues or just relaxing on those long sunny days. Designed to fit any home and garden, an outdoor deck is a cost effective way to make extra living space.

Covers has an extensive range of decking from softwood, hardwood, composites from Millboard, Smartboard and Metsä specialising in anti-slip and speciality types.

Enhancing any garden, decking can be enjoyed by everyone in the family and will be durable, long lasting, easy to maintain and continue to look good for many years to come!

As a special service, we can also create decking patterns from your own drawings in the softwood or hardwood of your choice.

## Fencing

Whether you are looking to fence off the whole garden, or erect a garden gate, or simply screening a part of the garden, Covers have the answers – a combination of quality, reliability and versatility that adds up to the complete fencing system.

Fencing can take many forms, our extensive range of functional and decorative fencing will enable you to meet every requirement adding security and privacy whilst enhancing the natural beauty of your garden.

The complete fencing system also includes the Metpost range, designed to take the hard work out of fence erection.

Covers stock a wide range of fencing products and accessories including panels, trellising, gates, posts and post erecting products.

We're the area's largest stockist of quality doors, windows and staircases with dedicated showrooms in Bognor Regis and Chichester.

We stock high specification doors and windows from world class suppliers such as PM Mendes, Premdor, Jeld-Wen, Crystal, Vicaima, XL Joinery, Dale Windows, Velux and many more.

We have a wide range of staircases, from contemporary to distinctive styles from leading brands such as Jeld-Wen. Covers also supply an excellent range of made to measure uPVC doors, windows and toilet cubicles. Fibreglass doorsets are also available in various colours and styles.

## Ironmongery

Our extensive selection and helpful, knowledgeable advice, have helped make us the security experts in the South.

We provide complete fittings and solutions for all types of security projects, whether it is private, housing association or public buildings. We can provide for individual properties to large scale developments, commercial or residential, new build or old.

At Covers, we also offer our customers a specification service to ensure on-time delivery and can help organise master key layouts.

### **Solid**

Covers hardwood flooring has natural beauty and character in abundance – your first step in creating your dream rooms.

Solid hardwood flooring from Covers is specially selected with traditional characteristics in both pre-finished and unfinished styles. We can offer a wide range of oak boards from stock.

### **Engineered**

Our high quality pre-finished, real wood engineered flooring is the perfect solution to transforming your living space with the minimum of effort and skill. Installation is easy and precise - the boards just click down, no nails or glue required. Real wood engineered flooring from Covers can be used on top of your existing flooring, on a new concrete floor as well as on top of underfloor heating systems.

Covers has Plank V-Grooved Oiled Oak, Lacquered Oak and 3 Strip Oak boards available from stock and can order boards in various woods and finishes.

### **Laminate**

Laminate flooring is a great choice for transforming a room on a budget. Laminate flooring is incredibly durable and easy to care for and comes in a wide variety of natural looking flooring designs, and with glue-less installation, they're quick and easy to install.

### **Luxury Vinyl tiles & planks**

The latest innovation for good looking and hard wearing floors available in a wide range of colours and finishes in both loose lay and fixed.

## Flooring

Nothing beats the feel of a good floor under your feet, whether it's solid, engineered, laminate or vinyl. Practical, hard wearing and needing minimal maintenance, the best flooring has remarkable resilience to the knocks and bumps of everyday life – and can last for decades.

At Covers, we're able to offer over 40 different types of timber and timber-style floor covering from major manufacturers and importers, with knowledge and installation advice to match.

Trust Covers to help you put on the style.

We have thousands of trade and retail colours from the UK's leading paint manufacturers, and with our revolutionary Dulux 'Eye for Colour' scanner we can match practically any shade you need. Decorate with confidence with our vast selection of accessories and tools – from cornering to brushes, pastes, rollers and more.

# Sealants & Adhesives

Mind the gap. Covers has one of the widest selections of sealants and gap filling adhesives in the South. Just ask for detailed product advice and then choose from an array of market-leading brands including, Gripfill, Dow Corning, Evo-Stik, Geocel, Wudcare and more.

## Fixings & Screws

At Covers, we stock the most comprehensive range of fixings and fastenings for practically every application. We've stock items from big industry names including Fischer, Spax, Thunderbolt, Paslode, Carpenters Mate and Superdrive.

## Power Tools

### Power comes with experience

Covers stock the largest range of accessories and safety gear, and if you don't see what you need – just ask. Our experienced and knowledgeable team can source any power tool or accessory on the market.

Covers has the most extensive range of big-brand power tools for the trade and serious DIY enthusiast. With ranges from DeWalt, Makita, Hitachi, Trend, Paslode, and Einhell, we have every need covered.

Our selection features cordless and power drills (240V and 110V), grinders, sanders, reciprocating, circular, jigsaws and mitre saws, planers, routers and gas and compressor nail guns.

We are a major stockist of Ideal Standard, Roper Rhodes, Laura Ashley and Duravit bathrooms at very competitive prices. We have many different styles of pottery to suit all tastes, both contemporary and traditional.

At Covers, we've invested in the latest computer - aided design technology to bring your concepts and ideas to life. Our experts will painlessly and creatively guide you through the process, working hand-in-hand with you at every step to make your dream bathroom a reality.

For more information our range of bathrooms and services please contact the following depots:

**Chichester: 01243 785141**

The Eco Energy Centre brings to life what green living really is. Each building product and appliance has been carefully sourced for its commitment to the environment and its affordability.

The Eco Energy Centre is a vital resource for consumers and tradesmen to learn about how to make their home energy efficient and eco friendly. For new homes, use of eco elements is vital to comply with the Building Code and adds value.

- Introduce natural light into the home
- Use four times less electricity
- Save water
- Install under floor heating
- Use a renewable resource to heat and insulate your home
- Improve the air quality inside your home
- Save yourself money with water softeners
- Reduce CO<sup>2</sup> carbon emissions with energy efficient boilers

If you have any questions/enquiries about the code or any other related building legalisations, please contact our Eco Energy Centre.

*Pick up our Eco Energy Product Brochure from any Covers depot or download from [coversmerchants.co.uk](http://coversmerchants.co.uk)*

## Eco Energy Products

Covers Eco Energy Centre at our Chichester depot is making sustainable living practical, by sourcing the very best in eco products and materials for the home and putting them under one roof.

This leading centre of expertise is the first of its kind in the South East. Consumers and trade customers can now view and purchase the latest in eco products for the home and garden from our experts.

Our expert staff are happy to advise on your project - whatever the size and to survey your premises.

### Free energy survey

Covers Eco Energy Centre offers a Free energy survey for your home.

For more information on how we can help you and helping you with your energy saving products, please contact:

**01243 785141**

At our major depots we hold a comprehensive range of plumbing and heating products including radiators and ancillary products, Speedfit fittings, Floplast above and below ground.

Professional sales staff provide expert advice and our extensive range from suppliers such as Floplast, Saniflo, Pegler/Yorkshire, Honeywell, Drayton, Scalemaster, McAlpine, Fernox, Grundfos and many more offer you the range to do an expert job.

We also stock cast iron gutter and can special order aluminium, copper and galvanised steel from our range of leading suppliers.

Our skilled sales office staff are equipped with product libraries from suppliers to assist the sourcing of special and unusual orders.

Situated on the same site as Covers Chichester Trade Centre, Covers Home Ideas welcomes retail and trade customers with everything you need to give you ideas for your home improvement projects.

With an extensive DIY offering, stunning lifestyle kitchen, bathroom, flooring and bedrooms showrooms plus lighting and gardening displays - we are confident that we can help you with any project in the home under the one roof.

# Deliveries

Covers offer a complete collection and delivery service from depots across Sussex, Hampshire, Surrey and Kent.

Delivery vehicles are equipped with mechanical handling equipment to ensure fast and efficient off loading at your site.

# Brochures & Downloads

We have a wide range of other brochures that you can pick up at any depot or download from our website.

[coversmerchants.co.uk/downloads](https://coversmerchants.co.uk/downloads)

# Covers Accounts

We have a variety of trading options to suit your requirements. Ask in depot today or download your preferred choice from **coversmerchants.co.uk** and apply today.

If you have any queries regarding your application please telephone: **0844 858 4040**

## Credit Account

Covers offer a 30-day account to qualifying customers on trade terms so that you can buy everything at the right price, with account facilities of invoices and statements to your office and planned payments dates.\*

For a Company Credit Account Application form for sole traders/partnerships/individuals or LTD/PLC/LLP companies, please contact either your local branch or email:

**applications@coversmerchants.co.uk**

*\* Credit references required. Terms and conditions apply*

## Depot Account

The Covers Depot Account offers the benefits of a Credit Account in terms of invoices and statements but no credit is offered. Ideal for a small trader who may send one of their team to collect goods and does not wish to give them cash or to lose the invoices. For a Depot Account Application please contact either your local branch or email:

**applications@coversmerchants.co.uk**

## Trade Card

If you prefer to pay for things as you go, download the Covers Trade Card Application form from: **coversmerchants.co.uk** or contact either your local branch or email: **enquiries@coversmerchants.co.uk**

You get trade terms, which means you don't have to negotiate every time you pay.

## DIY Discount Membership

The Covers DIY Discount Membership entitles you to purchase products at a discounted price. There are, however, certain lines which will not attract any discount. It may be used at any department in any of our depots. You can download the DIY Discount Membership Application form from: **coversmerchants.co.uk** or contact either your local branch or email: **enquiries@coversmerchants.co.uk**

## Web Account

Create a web account and you will be able to:

- Shop online using your termed prices agreed with your depot
- View order history and easily reorder products
- Store multiple shipping addresses

For more information and to register, visit **coversmerchants.co.uk**

## Notes

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
